

Dear Business Partner,

We are pleased to announce the launch of AC&E's new **Diamond Insurance Cover**, developed to meet the needs of clients seeking insurance arrangements guided by ethical principles, transparency, and an interest-free approach.

These solutions provide brokers with access to insurance products specifically designed for clients who wish to align their insurance requirements with Islamic-conscious values, while maintaining the reliability, professionalism, and regulatory standards expected within the South African insurance market.

Available Product Lines

- Commercial Insurance
- Engineering Insurance
- Professional Indemnity Insurance – Sample policy attached
- Broadform Liability Insurance

Key Features

- Interest-free administration of premiums and claims
- Transparent policy structures and clearly defined cover
- Ethical and responsible operational framework
- Fair and accountable claims management
- Suitable for clients seeking Islamic-conscious insurance solutions

It is important to note that these products remain conventional insurance products regulated under South African insurance legislation and are not Takaful products or Shariah-certified offerings.

We believe this launch presents brokers with an opportunity to better serve a growing client segment seeking insurance solutions that reflect their ethical and religious considerations.
